Caloundra Sewerage Pipeline Project

Caloundra Road Section

29 January 2018

Dear Customer

To cater for the growing Caloundra community, Unitywater is upgrading the Caloundra Sewage Transport System to improve its capacity and efficiency. This upgrade entails the construction of a new sewer rising main 2.5 kilometres from the existing sewage pumping station, within Rotary Park, near the corner of Caloundra Road and Pelican Waters Boulevard to Beerburum Street.

The Caloundra Road section of pipeline involves horizontal directional drilling 500 metres from the northern end of Industrial Avenue, extending beneath the nature strip towards the roundabout, and exiting south of Caloundra Road at the Caloundra Sewage Pumping Station.

Installation of the 900mm diameter high density polyethylene (HDPE) pipe will follow drilling with final connection works taking place on both sides, tying in to the Nicklin Way (HDD) section completed last year.

Construction

Locations:	DRILL ENTRY – Nicklin Way adjacent to 13 Industrial Ave, Caloundra (Refer map overleaf) DRILL EXIT – Caloundra Sewage Pumping Station at Caloundra Rd, Caloundra	
When:	Wednesday 7 February to Friday 20 April, 2018	(Weather permitting)
